PURPOSE AND ORGANIZATION

The purpose of this Student Handbook is to give FSISD students and their parents an understanding of the general rules and guidelines for attending and receiving an education in our schools.

The Handbook is organized in the following sections:

- Required Legal Notices and Information
- General Information about Admission, Attendance, and Conduct
- Curriculum and Program Information
- Of Special Interest to Students
- Of Special Interest to Parents

When the Handbook uses “we” or “our,” it means the school district and/or school administrators. When the Handbook uses “you” or “your,” it means the parent, legal guardian, or person who has accepted responsibility for a student, at least in regard to school matters. From time to time, the Handbook will use more general terms, such as “parents” and “school officials.” Regardless of the particular terminology, our intention is to speak directly to you as the adults who are responsible for working with us, the school officials, to make your children’s experience with the Fort Stockton public schools a positive educational experience.

The Student Handbook has been developed by school district administrators with assistance of teachers, students, and parents. The content is reviewed by the Board of Trustees and is intended to be consistent with formally adopted school board policies. If there is an apparent contradiction between information in the Handbook and a formally adopted board policy, the school administration will interpret the Handbook in a way that is consistent with policy and may request guidance from the Board of Trustees.

The Student Handbook is not a contract between the school and parents or students. It can be amended at any time at the discretion of the school district. If the district makes changes to the Handbook during a school year, the administration of the district and the campus will communicate those changes in ways that are designed to inform parents and students of the new or revised information.

ACKNOWLEDGEMENT

Dear Student and Parent:

The Fort Stockton Independent School District provides this Student Handbook to parents and students to provide you with information about the general rules and guidelines for attending and receiving an education in our schools.

We urge you to read this publication thoroughly and to discuss it among your family. If you have any questions about the information here, we encourage you to ask for an explanation from the student's teacher, the school counselor, or campus administrator.

The student and parent should each sign this page on the space provided below, then return the page to the student's school. Thank you.

We acknowledge that we have received the FSISD Student Handbook for the 2009-10 school year, and that we are responsible for reading and understanding the information contained here.

REQUIRED LEGAL NOTICES

Nondiscrimination: FSISD does not discriminate in its educational programs and services, including its career and technology education programs, on the basis of sex, race, religion, color, national origin, or disability. The District complies with Title IX of the Education Amendments of 1972 and with Section 504 of the Rehabilitation Act of 1973. Any questions or concerns about the district's compliance with these federal programs should be brought to the attention of the person shown below as Title IX or Section 504 Coordinator.

The Title IX Coordinator for the school district is Paula Traynham whose office is located at 101 W. Division, Fort Stockton, Texas, and who can be reached by telephone by calling 432-336-4000.

The Section 504 Coordinator for the school district is Gwen Duncan whose office is located at 1200 W. 2nd and who can be reached by telephone by calling 432-336-4041.

Homeless Liaison and Title I Participants

Paula Traynham is our liaison for services to students who are determined to be homeless, as defined by federal law. If you believe your child may be eligible for services or assistance, contact Paula Traynham at 432-336-4000.

Paul Traynham is our Parent Involvement Coordinator who works with families and children participating in Title I programs. If you have questions about the program or need assistance related to the program, contact Paula Traynham at 432-336-4000.

Family Educational Rights and Privacy Act: The school district creates and keeps general education records for all students enrolled in district schools. Those records are confidential and generally are available only to parents and school personnel or other people who are acting on behalf of the school district. When we say "parents" have a right of access to and copies of all education records pertaining to their children, we mean all biological or legal parents—whether married, divorced, or separated—and any other person with whom the child resides and who is acting as a parent in the absence of the child's parent or legal guardian.

Parents control the access to their children's education records until the child becomes an adult at age 18. When the child reaches age 18, she or he controls the access to his or her records and is the one who can consent to the release of the records to other persons. However, parents continue to have a right to see and obtain a copy their children's education records so long as the child is a dependent for federal income tax purposes, even if the child does not want them to.

If a parent wants to see **or obtain a** copy his or her child's education records, she or he should contact the principal of the child's school if the child is currently enrolled. If the child has withdrawn or graduated, parents should contact the school superintendent for access to records. Records can be reviewed in administrative offices during regular office hours, from 8:00 a.m. to 4:00 p.m., and someone will be available to answer questions about the records.

Originals cannot be removed from the principal's or superintendent's office. Copies will be provided to parents within a reasonable time, usually not more than two or three days, after parents have made a written request for copies. Parents will be charged the district's usual copying fees for copies; however, if the student is eligible for free or reduced price lunches and the parents cannot come to school to review the records, the school will provide one copy of the requested records at no charge.

If you disagree with information in your child's records or believe some information is inaccurate, you can ask for a correction. If the principal does not make the correction, you can ask for a hearing with the superintendent to explain why you believe the record is wrong or misleading. If the superintendent does not direct an amendment to be made, you have 30 days to place a comment in the student's record about the information. **Under no circumstances can students or parents use this process to challenge a grade recorded for a student.**

Because parents generally control access to their children's education records, the district ordinarily will not permit access to or copies of education records without at least one parent's written authorization to release the records. **However, under some circumstances, the district can and will provide access to or copies of education records without parent authorization. The most common circumstances are these:**

- The district will forward education records on request to a public or private school or institution of higher education in which the student seeks or intends to enroll.
- The district may disclose education records to a contractor, consultant, volunteer, or other person who is performing services for the district, who is under the district's control related to the use of the records, and who has complied with district limitations on the re-disclosure of personally identifiable information from education records.
- The district will comply with a lawful subpoena for student education records, but will make reasonable efforts to notify the parents before complying, unless the subpoena indicates that parents should not be notified.
- The district will release directory information about students to any person who submits a written request for the information, as provided in the DIRECTORY INFORMATION notice included in this Student Handbook.
- The district will release educational records to a juvenile justice agency in accordance with an agreement with between the district and the agency. The

information will be released before the student is adjudicated and will be provided so that the juvenile agency can appropriately serve the student.

- The district will release educational records to “school officials,” meaning any employees, trustees, or agents of the district, including persons employed in shared services arrangements or cooperatives of which the district is a member, school volunteers, parents or students serving on official committees, and the district’s legal counsel, who have a “legitimate educational interest” in the records, meaning they are persons who work directly with your child at school or any school activity, including officials involved in disciplinary or academic decisions affecting your child directly, persons who are compiling statistical data for the district, who are reviewing such records to fulfill their employment responsibilities, or who are investigating or evaluating district programs.

If you want to review the school’s entire policy regarding student records, please contact the campus principal, who will be glad to provide a copy for you and to answer any questions you may have about the policy or this notice. You may also download the policy (coded FL (LEGAL) and (LOCAL)) from the District’s online policy manual. If you believe the district is not following the law regarding student records, you have the right to file a complaint with the United States Department of Education.

DIRECTORY INFORMATION

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting information unless the parent or guardian objects to the release of the directory information about the student.

If you do not want FSISD to disclose directory information from your child’s education records without your prior written consent, you must notify the district in writing by September 1, 2009.

FSISD has designated the following information about your child as directory information: name, address, telephone listing, e-mail address, photograph, degrees, honors, awards received, date of birth, place of birth, major field of study, dates of attendance, grade level, most recent school attended, security recordings unless used to impose discipline, participation in officially recognized activities and sports, height & weight of members of athletic teams.

If you DO NOT want us to release ANY information about your child without your written consent, check this box and return the form by September 1, 2009.

We have designated the following categories of directory information as pertinent to limited school-sponsored purposes. “School-sponsored purposes” means for

publication in a student directory, a school yearbook, or official school publications including the school's website and programs for school-sponsored events.

- | | |
|---|---|
| <input type="checkbox"/> Name | <input type="checkbox"/> Address |
| <input type="checkbox"/> Telephone listing | <input type="checkbox"/> Electronic mail address |
| <input type="checkbox"/> Photograph | <input type="checkbox"/> Degrees, honors, awards received |
| <input type="checkbox"/> Grade level | <input type="checkbox"/> Most recent school attended |
| <input type="checkbox"/> Participation in officially recognized activities and sports | <input type="checkbox"/> Height & weight of members of athletic teams |

- If you CONSENT to the use of all of the above-listed items for limited school-sponsored purposes ONLY, check this box and return this form to us by September 1, 2009.
- If you CONSENT to the use of some but not all of the above listed items for limited school-sponsored purposes ONLY, check this box AND the categories for which you are providing consent and return this form to us by September 1, 2009.

FSISD receives federal funds under the Elementary and Secondary Education Act of 1965 (20 U.S.C. § 6301 et seq.), and we are therefore required to disclose your secondary (grades 7-12) child's name, address, and phone number to a military recruiter or institution of higher education, on their request, unless you have told us that you do not want that information released without your prior written consent.

- If you DO NOT want us to release your secondary school (grades 7-12) child's name, address, and telephone number to a military recruiter or institution of higher education, check this box.

Protection of Pupil Rights Amendment: We do not require students to participate in any surveys that are funded with any U.S. Department of Education funds that concern the following topics unless you (or your child if he or she is an adult) give us your prior consent. You will also have the opportunity to inspect the survey in advance. If we administer surveys that concern any of these topics that are funded from other sources, we will give you advance notice of the survey, allow you an opportunity to inspect the survey, and give you an opportunity to opt-out of the survey. The topics that are covered by this notice are:

1. political affiliations or beliefs of the student or his or her parent;
2. mental or psychological problems of the student or his or her family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating, or demeaning behavior;
5. critical appraisals of others with whom the responding students have close family relationships;
6. legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. religious practices, affiliations, or beliefs of the student or his or her parent; or
8. income, other than as required by law to determine program eligibility.

Invasive Examinations or Screenings: We do not perform any invasive physical examinations or screenings as a condition of attendance. We do perform vision, hearing, acanthosis nigricans, and scoliosis screenings, as required by state law. Please contact the principal if you have questions regarding those screenings.

Teacher Qualifications: You may request the following information, which we will provide to you in a timely manner:

1. Whether your child's teacher(s) have met state qualification and licensing criteria for their grade levels and subject areas.
2. Whether your child's teacher(s) are serving under emergency or other provisional status that is less than full state certification.
3. The bachelor's degree major of your child's teacher(s) and any graduate degrees held, and the field of certification or degree.
4. Whether your child receives services from paraprofessionals and, if so, their qualifications.

Options and Requirements for Providing Assistance to Students Who Have Learning Difficulties or Who Need or May Need Special Education:

If a child is experiencing learning difficulties, the parent may contact the person listed below to learn about the district's overall general education referral or screening system for support services. This system links students to a variety of support options, including referral for a special education evaluation. Students having difficulty in the regular classroom should be considered for tutorial, compensatory, and other support services that are available to all students.

At any time, a parent is entitled to request an evaluation for special education services. Within a reasonable amount of time, the district must decide if the evaluation is needed. If evaluation is needed, the parent will be notified and asked to provide consent for the evaluation. The district must complete the evaluation and the report within 60 calendar days of the date of the district receives the written consent. The district must give a copy of the report to the parent.

If the district determines that the evaluation is not needed, the district will provide the parent with a written notice that explains why the child will not be evaluated. This written notice will include a statement that informs the parent of their rights if they disagree with the district. Additionally, the notice must inform the parent how to obtain a copy of the Notice of Procedural Safeguards - Rights of Parents of Students with Disabilities.

The designated person to contact regarding options for a child experiencing learning difficulties or a referral for evaluation for special education is:

Contact Person: Gwen Duncan, Director of Special Services

Phone Number: 432-336-4040 or 432-336-4041

GENERAL INFORMATION

2009-2010 School Calendar

See appendix for a copy of the 2009-2010 school calendar.

Student's Legal Name

While we recognize that there are circumstances when a parent may wish his or her child to be enrolled under a name other than the child's legal name, we are required to maintain all school records for your child under the child's legal surname as shown on the birth certificate or other recognized document to prove the child's identity or as shown in a court order changing the child's name.

Admission, Release, Withdrawal

These are the basic requirements for admission to district schools:

1. The student lives in the district with a parent or legal guardian or one of the student's parents lives in the district, even if the student does not live with that parent.
 - To be eligible for admission based on just the parent's residence in the district, the court that issued a final order in a divorce proceeding must have designated that parent as a managing or possessory conservator for the child.
 - The parent enrolling a student based on only the parent's residence in the district must provide a copy of a current final order, signed by the judge and showing a file stamp from the court, designating the parent as a managing or possessory conservator.
2. The student is under age 18 and, subject to District policy at FD (LOCAL) and FDA (LOCAL), lives in the district with an adult resident of the district who has accepted a Power of Attorney from the child's parent or legal guardian. The school district has Power of Attorney forms to be completed by both the parent and the person the student lives with.
3. The student is under age 18 and does not reside in the district, but a grandparent who provides a substantial amount of after-school care for the person resides in the district. "Substantial amount of after-school care" means the grandparent provides after-school care for the student at least four days each school week.
4. Students under the age of 18 must be enrolled by a parent, legal guardian, or adult resident who has a valid Power of Attorney for the student. Students who are 18 or older, who are legally married, or who have ever been legally married, and who have not graduated from high school can enroll themselves.

5. The adult enrolling the student must present current immunization records or show proof that the required immunizations have been begun.
6. No later than 30 days after a student has been enrolled, the adult enrolling the student must provide a copy of a birth certificate or other acceptable identification for the child and copies of the education records from the school the child last attended.

We do not admit underage students to school. Your child must be 5 years old on or before September 1 of the current school year to be admitted to kindergarten. To be admitted to first grade, your child must be 6 years old on or before September 1 of the current year or must have completed kindergarten, or been enrolled in first grade, in the public schools of another state.

We do not ordinarily admit overage students to school. However, a student who is 21 or younger and who has completed a GED program, but has not graduated from any high school, will be admitted.

As part of our dropout recovery programs, we may admit someone between the ages of 21 and 26 for the purpose of completing the requirements for a high school diploma. A student admitted for this purpose and who has not attended school in the preceding three years will not be placed in a classroom setting, cafeteria, or other school-sanctioned activity with a student who is 18 or younger; however, those students remain free to attend all school-sponsored events that are open to the public.

The application for admission and enrollment forms are official government records, and it is a crime to provide false information of any kind or false records for identification. School officials can ask parents or another adult enrolling a student to provide some evidence that they are bona fide residents of the school district. As required by law, we will record the name, address, and date of birth of the person enrolling a student.

If school officials have reason to question the legitimacy of a child's residency information, they can investigate to determine the student's actual place of residence. If the district finds that a student is not really a district resident, the student will be withdrawn, and school officials will take the necessary legal steps to recover the maximum tuition fee the school district can charge or the amount the board of trustees budgets as an expense per student.

Attendance Zones

The Board of Trustees has established geographic boundaries for each school, and students generally must attend the schools in the zone for their street address. You can make a written request for your child to attend a particular school and will have a chance to explain to the superintendent why you think your request should be granted. Contact the superintendent for further information if you are not satisfied with the superintendent's decision.

Certain Transfers—Victims of Bullying and Sexual Assault

If you believe that your child is the victim of bullying (see the definition in the Student Code of Conduct), you may request a transfer to another classroom at the same campus or to another campus within the school district. If we verify that your child is the victim of bullying, the transfer will be made. If the transfer is to another campus, we will not provide transportation to that campus. Our decision on this kind of transfer is final and cannot be appealed to the board or any other authority.

If another student in the district is convicted of committing continuous sexual abuse of a young child or children or convicted and placed on deferred adjudication for a sexual assault or aggravated sexual assault against your child (see definitions in the Student Code of Conduct), you may request that your child be transferred to another campus within the district or to a neighboring school district, and the request will be granted. We will not provide transportation to the new campus. If you do not want to transfer your child, we will take appropriate steps regarding the other student to ensure that both students are not assigned to the same campus. Our decision on this kind of transfer is final and cannot be appealed to the board or any other authority.

Release During the School Day

Students will be allowed to leave school during the school day only with the permission of the principal or someone in the principal's office who has been given the authority to release students. Parents cannot go directly to their children's classroom and take the child away from school during the day. Teachers do not have the authority to let children leave their classroom with anyone. If you need to take your child from school before the end of the school day, such as for a medical appointment or a family emergency, you should go to the principal's office and sign the child out. The teacher will send the child to the principal's office, and she or he will be released to you at that time.

At the time children are enrolled, the parent or other adult completing the enrollment forms should list those people who are authorized to pick up children during the school day. **Unless the principal has a current court order signed by a judge, showing an official file stamp with the court, and indicating that a parent's right of access to and possession of his or her children has been limited in some way, the principal will release children to either parent.**

Students will not ordinarily be released during the school day to participate in private lessons or other instruction. If you believe you have a special situation that would warrant an exception to this rule, please contact the campus principal to schedule a conference about your situation.

Withdrawing from School

Children who are under age 18 will not be permitted to withdraw from school unless a parent, legal guardian, or other adult with responsibility for the child comes to the school to complete the necessary forms. Students must return all textbooks issued to them and clear any library fines and other outstanding fees in order for the school to release an official copy of the student's records to the parents or to another school district.

Students who are age 18 or older, who are legally married, or who have ever been legally married are adults and can withdraw themselves from school.

Attendance Requirements

State compulsory attendance laws generally require all children between the ages of six and 18 to attend school each day that school is in session. A student who is younger than six and has ever been enrolled in the first grade is required to attend school. Once a parent enrolls a child in kindergarten or pre-kindergarten, the child is required to attend school that school year.

A student who voluntarily remains enrolled after the age of 18 is required to attend school. If an 18-year-old student has more than five unexcused absences in a semester, we may revoke his or her enrollment for the rest of the school year. If we revoke enrollment, the student will be treated as an unauthorized person and may be arrested for trespassing if he or she comes on school property. A student who is at least 18 years old and under the age of 21 will be required to attend school until the end of the school year.

Regular attendance is critical to your child's success in school. It is also critical to the school district's success because it is a factor in the district and campus rating under the state accountability system and is a determining factor in the amount of state financial aid the district is entitled to receive.

School officials aggressively enforce the state compulsory attendance laws. If your child is absent from school on 10 or more days or partial days within a six-month period in the same school year or on three or more days or parts of days within a four-week period, you will be prosecuted for contributing to truancy and your child will be prosecuted for failure to attend school. You will be notified when your child has three unexcused absences within a four-week period or less to advise you that you must monitor your child's attendance, to inform you that you may be prosecuted, and to request a conference to discuss the absences. Every day that a child is out of school in violation of compulsory attendance laws is a separate offense. You may be assessed a fine for each offense and may also be ordered to

participate in a class designed to help you make sure your child attends school as required.

If a student who is at least 18 years old and younger than 21 fails to attend school, the District will pursue legal action against the student for failure to attend school. We will not ordinarily send warning notices to parents under these circumstances. Parents of these older students will not be referred for prosecution for contributing to truancy.

Of course, there are times that children are sick or have other legitimate reasons for being absent from school. Regardless of the age of your child, if she or he is sick and will not be at school that day, you should call the school office to let them know of the absence. Whenever a child is absent from school for any reason, she or he should bring a note the following day signed by you explaining the reason for the child's absence when she or he returns to school. Students are allowed four parent excuses per semester. The principal or someone acting for the principal will make the final decision whether an absence is classified as excused or unexcused.

If the child does not bring a signed note, the absence will be classified as unexcused. Students ordinarily will not be permitted to make up missed work for credit if the absence is unexcused.

Although students who are married are legally adults, this fact does not mean that they are not legally required to attend school until they are age 18. We have the authority to file charges directly against students who are married, have not graduated from high school, and do not attend school. We will work aggressively with local authorities to make sure that all students who are within compulsory attendance requirements come to school.

Doctor and Dental Appointments: Absences for appointments with doctors, dentists, orthodontists, physical therapists, and other health care professionals will be classified as excused absences if the student returns to school on the same day as the appointment and presents a note from the health care provider stating the time of the appointment and the time the student left the doctor's office. If the appointment is at the end of the school day and the student has been at school all day up to that time, the absence will be excused if the student brings a note from the health care provider the following day. **These excused absences include those for a student diagnosed with autism spectrum disorder to attend appointments with health care practitioners to receive a generally recognized service for persons with that diagnosis, such as applied behavioral analysis, speech therapy, and occupational therapy.**

Religious Holidays: Absences for religious holy days, including up to two days of travel time if necessary, will be classified as excused absences.

Court Appearances: Absences for required court appearances will be classified as excused absences upon presentation to the campus attendance official of a copy of the document requiring the student's appearance in court.

Sounding “Taps” at a Veteran’s Funeral: Absences by students in grades 6-12 for the purpose of sounding “Taps” at a veteran’s funeral with military honors may be excused upon verification that the student provided the service noted.

Citizenship/Naturalization Activities: Absences for appearing at a government office to complete citizenship application paperwork and for taking part in a United States naturalization oath ceremony will be excused upon verification of the student’s participation.

Tardies

Fort Stockton High School encourages students to be on time to all classes. Please refer to the appendix for the complete tardy policy.

Attendance and Credit Separate and apart from the compulsory attendance requirements, students must attend school a certain amount of time in order to get credit for their academic work. State law generally requires students to be “in attendance” for at least 90 percent of the days a class is taught during a semester or year. All absences from class, excused or unexcused, are counted in determining whether a student has met attendance for credit requirements.

Students who are in attendance in a class at least 75% of the days but less than 90% are eligible to receive credit if they complete a plan approved by the principal providing for the student to meet the instructional requirements for the class. Students who are under the jurisdiction of a court in a criminal or juvenile justice proceeding must also obtain the court’s consent before credit may be granted.

In the 2009-2010 school year, we require students to be in class for 72 days in the Fall Semester and 88 days in the Spring Semester to meet the 90% attendance for credit requirements. Each campus has an attendance committee that will review student attendance records. If the committee decides that extenuating circumstances prevented a student from meeting the minimum attendance for credit standard or fulfilling the principal’s plan for meeting instructional requirements, the committee can award credit or tell the student what additional work, additional time, or both time and work must be completed in order for the student to get credit for the grade level or course.

You will be notified when your child is in danger of losing credit because of absences and will have the chance to meet with the attendance committee to discuss your child’s situation.

Conduct and Discipline

Along with this Student Handbook, your child has also received a copy of the FSISD Student Code of Conduct. The Code of Conduct contains the school district’s requirements for student conduct and behavior while at school or under the school’s jurisdiction. The Code of Conduct also explains the kinds of disciplinary action school officials can take in response to violations of the rules for student conduct and the steps involved in taking disciplinary action. If you have any questions about

conduct or discipline rules, please refer to the Code of Conduct or call your child's principal.

A student age 21 or older who has been admitted to District schools to complete the requirements for a high school diploma will not be placed in the District's DAEP or a JJAEP in which the District participates for violations of the Code of Conduct. Instead, the District will revoke the student's admission to the District.

DRESS AND GROOMING

The District's dress code is established to teach grooming and hygiene, to prevent disruption to the learning environment, and minimize safety hazards. Modesty and the avoidance of distracting and disrupting influences are the keys to student dress. Students and parents may determine a student's personal dress and grooming standards provided that they comply with the guidelines listed below.

The following list of apparel includes specific items considered inappropriate for school and school activities and **SHOULD NOT BE WORN**:

1. No muscle shirts, mesh shirts, cut-off T-shirts, tank tops, tube tops, spaghetti straps, low cut tops, string-tie tops, halter tops or dresses, midriff revealing shirts, or see-through tops.
2. No shorts or pajamas of any kind for boys or girls. Girls may wear Capri pants below the knees. If the knee is visible when seated, the pants will be considered shorts and therefore, inappropriate.
3. No clothing or make-up that promotes gangs, drugs, alcohol, violence, Satanism, or sex, or clothing that has an obscene, lewd, vulgar, offensive or suggestive message. This includes, but is not limited to, black lipstick, bandannas, house shoes, chains, eight ball symbols or "homie" shirts.
4. No hats or caps in the building including stocking caps and other head cover such as Doo Rags, cowboy hats, bandanas, etc....
5. No items designed for outdoor wear such as gloves and mittens.
6. No sunglasses worn or displayed inside the building (unless there is a medical excuse). No contact lenses or health-related item that is extreme or different enough to be a distraction or disruption (for example cat-eye lenses, red or white lenses, etc.).
7. No skirts or dresses more than three inches above the knee.
8. No sagging or baggy pants. No shorts for boys or girls. No pants with holes above the knees. Pants must be worn at the normal waist. Belts must be worn as needed to keep pants up at the waist.
9. No earrings or studs on boys or other visible body piercing for boys and girls. Girls may wear pierced earrings. Covering a piercing with bandage or tape is not allowed and will not be accepted as an exception to this rule.
10. Boys are prohibited from wearing makeup and other beauty enhancement products such as eyeliner, eye shadow, blush, lip stick, artificial nails or tips, artificial eyelashes, etc... The final decision will be made by the campus administrator.

11. Shirt tails must be tucked in at all times for boys. This includes a shirt worn over another shirt. Pockets must be visible for boys and girls.
12. Garments having straps must have all straps fastened (for example: overalls).
13. Hair must be clean, groomed, colored a natural shade and no longer than the bottom of the collar on boys. Any style that is extreme or creates a distraction in the learning environment such as Mohawks, faux hawks, bear-claws, spikes, (ponytails for boys) is prohibited. The final decision will be made by the campus administrator.
14. Shoes must be worn at all times. Specifically prohibited are cleats, house shoes, skate wheels, or footwear not intended for outdoor wear.
15. Proper undergarments must be worn.
16. No facial hair of any kind. Boys' sideburns shall be no longer than the bottom of the earlobe.

VIOLATIONS OF DRESS AND GROOMING

If the campus administrator determines that a student's grooming/dress violates the dress code, the student shall be given an opportunity to correct the problem at school. If the problem cannot be resolved, the student will be removed to the ISS or OSS. Appropriate disciplinary consequences will be utilized as determined by the administrator.

Harassment of Students

We prohibit students from sexually harassing other students and from sexually harassing employees; we also prohibit harassment based on anyone's race, color, gender, national origin, or disability. Engaging in harassment is a violation of the Student Code of Conduct. We, of course, prohibit employees from having any kind of sexual contact or romantic relationship with students enrolled in our schools, even if the student is willing and the parents do not object. See the Student Code of Conduct for a complete description of the offense of "harassment" and possible disciplinary consequences.

If you or your child have a complaint about sexual comments, conduct, contact, or any other inappropriate conduct by a school employee or about any other kind of harassment, do not hesitate to contact the Title IX coordinator whose name appears at the beginning of this Handbook regarding sexual harassment or the superintendent regarding any other harassment. We will listen to your concern and conduct a prompt investigation. We also will look into reports that other students have been making sexual or other harassing comments to or engaging in sexual or other inappropriate conduct or contact with your child at school or school activities and take appropriate disciplinary action according to the requirements of the Code of Conduct.

Although we will provide you a general report of the results of our investigation of harassment complaints, the same federal law that protects the confidentiality of information about your child (see Family Educational Rights and Privacy Act, p. 6) protects the confidentiality of information about the student you reported for investigation. In other words, we will not disclose to you the specific discipline imposed on another student, unless that student's parents give us permission to disclose that information. If the complaint is about an employee's conduct, we will inform you of the results of the investigation and of the general action taken in response if there is a finding of wrong-doing on the employee's part.

A copy of the entire policy addressing prohibited harassment or retaliation and the process for making reports or complaints related to alleged harassment or retaliation is included in the appendix of this handbook.

Searches of Students, Lockers, and Vehicles on School Property

The principal or other school administrator can search a student's outer clothing, pockets, or property if she or he has a reasonable basis to suspect that the search will reveal evidence that the student has violated a school rule. The scope of the search will be related to the suspected violation.

Lockers are school property and remain under the school's control at all times. Lockers can be searched at any time. Because students are responsible for any contraband that is found in their lockers and will be disciplined accordingly, they should not give any other student the combination to their locker or otherwise let anyone else have access to their lockers. In addition, the sharing of lockers is prohibited.

Vehicles parked on school property are also subject to search by the principal or other school administrators if the administrator has a reasonable basis to suspect that there may be contraband of any kind, such as weapons, alcohol, drugs, or any other prohibited substance, in the car.

We periodically bring in trained dogs to sniff around lockers, classrooms, common areas, student belongings, and vehicles parked on school property or within 300 feet of school property. If the trained dog alerts, that alert provides a reasonable basis to search. We will always ask the student for permission to search when a dog alerts or we have any reasonable basis, such as a reliable tip, to search the vehicle, locker, etc. If the student does not consent, we will ordinarily contact a parent and local law enforcement and turn the matter over to the police. Because students are responsible for any contraband that is found in a vehicle they have parked on school property and will be disciplined accordingly, they should be aware of and very careful about what goes on in any vehicle they drive to school.

Questioning Students at School

As school officials, we have the right to question your child about his or her own conduct at school and, in the investigation of alleged misconduct by other students

or employees, to question him or her about the conduct of others. We expect students to cooperate in this process, and the refusal to cooperate will be treated as insubordination and disciplined accordingly. We will not ordinarily contact you before questioning your child about his or her own conduct or about the conduct of other students or employees, but certainly will contact you as provided in the Student Code of Conduct if our investigation shows that your child has violated school conduct rules. The Code of Conduct provides a complete explanation of the discipline processes and when you will be contacted. Our investigation of possible violations of the Code of Conduct is not a criminal proceeding, and there is no such thing as “taking the Fifth” or a student’s right not to incriminate himself or herself in a school discipline investigation.

Sometimes law enforcement officials or investigators from Child Protective Services (CPS) ask to interview students at school. In the case of an investigator from Child Protective Services conducting a child abuse or neglect investigation, we are required by state law to permit the investigator to talk to the child at school. We will also make every effort to cooperate with law enforcement officials conducting an investigation that requires talking to students.

Ordinarily, we will attempt to contact you before the interview by an outside person takes place. However, if the CPS investigator or the law enforcement official asks or tells us not to contact you, we will comply.

Pledges, Minute of Silence, Prayer, and Meditation

Each day teachers will lead students in the recitation of the Pledge of Allegiance to the U.S. flag and to the Texas flag. If you do not want your child to participate in this activity, please make a written request to the principal for your child to be excused. Following the recitation of the pledges, the school will observe a minute of silence. During this time, students may choose to reflect, pray, meditate, or engage in any other silent activity that is not likely to interfere with or distract other students.

Each student has a right to individually, voluntarily, and silently pray or meditate in school or at any school activity in a manner that does not disrupt or interfere with the delivery of instruction or other activities in the school. No school employee can or will require, encourage, or coerce a student to engage in or to refrain from such prayer or meditation during any school activity.

CURRICULUM AND PROGRAMS

General Curriculum Information

FSISD operates a Pre-K–12 program that meets all state curriculum requirements. Schools are organized by grade level, with separate campuses for elementary (pre-K–grade 3), intermediate (grades 4-5), High School (grades 6-8), and high school (grades 9-12).

Structured Physical Activity

In accordance with state law, we have the following policies in place to ensure that all students in elementary school, High School, and junior high school engage in the amount and level of physical activity required by the State Board of Education:

A district that offers grades 6–8 must provide instruction in the required curriculum as specified in 19 TAC 74.1, relating to essential knowledge and skills. The District shall ensure that sufficient time is provided for teachers to teach and for students to learn English language arts, mathematics, science, social studies, fine arts, health, physical education, technology applications, and to the extent possible, languages other than English. 19 TAC 74.3(a) See policy EHAC (Legal)

Special Programs

To meet the requirements of state and federal law, we also offer several programs designed to meet specific needs of some of our students. We identify students as eligible for one or more of these programs based on assessments made after referrals and recommendations from teachers and counselors and will always inform you about the program beforehand. We also can identify students based on an assessment after a request or referral from you. If you have any questions about the referral and identification process for any of the following programs, please contact your child's teacher(s), counselor, or the campus principal.

Special Education: FSISD provides special education and related services for students with disabilities according to individualized plans developed by teachers, parents, counselors, and other professionals. You may request an evaluation of your child to determine eligibility for special education at any time. We decide whether a student needs special education after we complete a comprehensive assessment. Please contact Gwen Duncan, Special Education Director at 432-336-4040, or your principal to receive full information about our special education programs. See also the required Notice at the beginning of this Handbook.

Section 504: Some students who are not eligible for special education and related services may also have disabilities that interfere with their ability to benefit from the regular school program. A committee of educators who have knowledge of the student and his or her needs and limitations will determine what accommodations to the regular method and requirements of instruction are necessary in order for the student to participate. Please contact your principal to receive full information about the school's Section 504 program.

Bilingual Education/English as a Second Language: English is the basic language of instruction in our schools. Children who have limited English-speaking skills will have access at Fort Stockton High School to an ESL program to help them learn to understand, speak, read, and write the English language. At the time you enroll your children for the first time, you will be asked to complete a Home

Language Survey so we know whether to take additional steps to be sure your child is properly served.

Gifted and Talented Students: Some children demonstrate or show a potential for demonstrating a remarkably high level of accomplishment when compared to other children of similar age, experience, or environment. These children may perform at a very high level in an intellectual, creative, or artistic area, show an unusually high capacity for leadership, or excel in a particular academic field. We provide a variety of programs, activities, and learning opportunity for these students. At Fort Stockton High School, gifted and talented students are generally served through Advanced Academic Placement classes.

Accelerated or Intensive Instruction/Students At-Risk: Some students do not qualify for special education programs or Section 504 accommodations, but still need some additional assistance to be successful in school and complete the high school program. We provide Panther Express both as a class and as a tutorial time, subject specific tutorial programs both before and after school, and intensive or accelerated instruction in subjects such as reading and math where students are showing special difficulty. FSHS may provide specially focused instruction to improve students' language and math skills. Some of our programs are designed to provide additional assistance to students who have been retained at any grade or have had serious discipline problems.

Counseling Programs and Services

The district has a developmental counseling and guidance program. Each secondary campus has one or more counselors who are available to help students with questions about planning their course of instruction, applications to college or other post-secondary education and training programs, scholarships and financial assistance, and other academic issues. We also have trained counselors available to talk and listen to students about situations and experiences that may be affecting their ability to get all they can from their instructional program. We encourage students to seek the assistance of school counselors whenever they need to, and counselors can also refer students or parents to other sources of assistance.

Some aspects of the counseling program require prior written parent consent for the student's participation. As parents, you also have the right to preview all the written materials used in the school counseling program. For full information, please contact your school principal or counselor.

Testing and Assessment Programs

Once again, the statewide assessment program is in transition. Students and parents will be informed of changes in the program affecting them as those changes are implemented. The current transition will eventually eliminate TAKS for high school students and implement instead a state-developed end-of-course examination in

core curriculum courses. Students in grades 3-8 will continue to be assessed using TAKS.

Results of the state examinations are used to assess individual student progress, as well as being a significant factor in the campus and district ratings under the statewide and federal accountability system. Please make every effort to have your children at school on state test administration days and to be sure that they have had plenty of rest the night before and a good breakfast that morning.

High school students can get registration and test preparation materials for the Preliminary Scholastic Assessment Test (PSAT), the Scholastic Assessment Test (SAT), and the American College Test (ACT) from the high school counselor.

As required by state law, we will annually assess the physical fitness of students in grades 3-12. You may request the results for your child in writing at the end of the school year.

Grading and Report Cards

Teachers establish their grading standards, including penalties for late work, but those standards must be consistent with guidelines approved by the campus principal. If you have a question about a grade your child receives on an assignment, you should talk first with the teacher. An exam or course grade issued by the teachers is final and will not be changed unless we determine that it was arbitrary, erroneous, or not consistent with the grading standards and policy.

Report cards will be sent home at the end of each grading period. If your child is having trouble in a class, you or the teacher may ask to schedule a conference. We encourage you to attend those conferences. If your child's performance in language arts, math, science, or social studies is consistently unsatisfactory, you will receive grade reports every three weeks.

With the report of grades for the first grading period of the school year, we will inform you of the most recent performance rating of your child's campus under the state's **Student Achievement** Indicator System, along with a definition and explanation of each performance rating.

Achievement is reported to parents as number grades, with any grade below 70 being a failing grade. (See appendix for Procedural Guidelines for Student Evaluation.)

Promotion, Retention, Award of Credit

Students are promoted from grade to grade, or awarded credit for a course, based on their mastery of the knowledge and skills that will let them be successful at the next grade level. In secondary grades, students receive credit for a course when they have met all the state and local requirements for that credit.

If your child entered kindergarten in the 2000-2001 school year or after, he or she will have to pass the TAKS examination in the fifth and eighth grades—or pass an alternate test if he or she does not pass after three tries on the TAKS—in order to be

promoted to the sixth and ninth grades. If your child does not pass the TAKS after the first administration at a grade level, we will provide intensive instruction in your child's area(s) of academic weakness. Contact your principal for more information or see policy EIE (LOCAL).

Library Facilities, Hours, and Access

Each school has a library available for student research and study, with resources appropriate for needs of the grades served by the campus. The library is supervised by a certified librarian / library aide. Students have access to the library during the school day and during posted hours before and after school.

If you have a concern about library materials available to your child, please contact the librarian, teacher, or the principal. We have a policy and process that will allow you to explain your concerns and reach an understanding about your child's access to the questioned materials.

Educational Technology and Acceptable Use

We are steadily acquiring computers for school use and access to other instructional and research resources through connections to the Internet and the World Wide Web. These electronic instructional resources are for use at school and for school-related purposes. Before your child is permitted to receive a User Identification and password to use school computers, you and your child must sign a User Agreement that explains acceptable and unacceptable use of school educational technology. You will have the choice to prevent your child from having access to the Internet on school computers.

The following kinds of use of the school's equipment or network are classified as unacceptable under our policy and the User Agreement:

1. Unauthorized use of copyrighted material, including violating District software licensing agreements or installing any personal software on district equipment without approval of the Technology Director. (See EFE)
2. **Viewing**, posting or distribution of messages that are obscene, vulgar, profane, **harassing**, sexually oriented, **sexually explicit**, pornographic, offensive to others, threatening to others, or illegal, because a significant part of the District's educational mission is to inculcate or instill the habits and manners of civility and to teach students the boundaries of socially appropriate behavior.
3. Personal political use to advocate for or against a candidate, office-holder, political party, or political position, measure, or proposition. Research or electronic communications regarding political issues or candidates is not a violation when the activity is to fulfill an assignment for course credit.
4. **Viewing or** participating in **social network sites or** chat rooms other than those sponsored and overseen by the District.

5. Tampering with anyone else's computer, files, or e-mail.
6. "Hacking," i.e., attempting unauthorized access to any computer whether within the district's network or outside it.
7. Attempting to change, disable, or destroy District equipment, files, or data or any other user's data or files, including introducing computer viruses into the District's system by any means.
8. Any use that would be unlawful under state or federal law.
9. Unauthorized disclosure, use, or distribution of personal identification information regarding students or employees.
10. Forgery of electronic mail messages or transmission of unsolicited junk e-mail chain messages.
11. Use that violates the student code of conduct.
12. Use related to commercial activities or for commercial gain.
13. Advertisement for purchase or sale of a product.

Students who violate the terms of the User Agreement may lose their computer privileges at school, as well as incur consequences under the school's Student Code of Conduct.

OF SPECIAL INTEREST TO STUDENTS

Extracurricular Activities

We offer a variety of school-related extracurricular activities and encourage students to participate in those that are of interest to them. Some activities, such as athletics and UIL Academics contests are closely related to subjects taught in the curriculum; others, such as the Student Council, help students build leadership skills. All of the academic, athletic and sports teams that participate in University Interscholastic League (UIL) athletic competition are extracurricular, as is the High School Band, and cheerleading. Although most extracurricular activities are designed for secondary students, those in grades 7 to 12, we encourage elementary age students to participate in UIL Academic activities and competitions.

Participation in extracurricular activities is a privilege, not a right. By state law, students must make a passing grade in all their classes in each grading period in order to be eligible to participate in any extracurricular performance or competition in the next grading period, unless the failing grade was received in an advanced placement or international baccalaureate course or in an honors or dual credit course in English language arts, math, science, social studies, or a language other than English. Students who are ineligible because of one or more grades below 70 will be allowed to practice or rehearse during a suspension, but cannot perform or compete. If the student raises the grade(s) to passing in all classes within three weeks, she or he will regain eligibility to perform or compete.

Many of our approved extracurricular activities have standards of conduct, dress, and grooming that are stricter than those that apply to all students. You and your child will be informed of those rules at the beginning of the semester, school year, or activity and will be asked to sign a form acknowledging that you are aware of those standards and know that violation of those standards will result in suspension or removal from the activity. These additional rules are authorized by the school board, which has delegated to the superintendent the authority to approve them.

Students who participate in UIL athletic activities will be subject to random testing for the presence of illegal steroids as required by UIL rules and regulations.

Our secondary schools have established a limited open forum that permits students to meet on school premises during non-instructional time before or after school in groups that are not related to the curriculum. Meetings of these groups must be student-initiated and student-run. School employees cannot be sponsors of these groups, and adults from outside the school system cannot direct, conduct, control, or regularly attend these meetings. (See policy FNAB (Local))

The following groups, activities, and organizations are authorized extracurricular activities in FSHS: National Honor Society, student council, choir, athletics, FFA, and academic UIL contests. Students may miss a class no more than 15 times in a school year to participate in an approved extracurricular activity.

Student Publications/Distribution of Materials

All materials prepared and published as part of a school's journalism or language arts programs are under the control and supervision of the administration and the Board of Trustees. The principal has final approval authority on all materials published or distributed in the name of the school.

Each campus has an area in the school where nonschool publications or materials that have been approved by the principal can be made available to students. Students are not permitted to distribute nonschool publications or materials in the classroom or hallways.

Before nonschool materials or publications are made available to students in the designated area, they must be submitted to the principal for review and approval. The principal will make a decision within two school days after the materials are submitted, and his or her failure to act within that time is interpreted as disapproval. If the materials are disapproved, students can appeal to the superintendent using the student complaint policy FNG (LOCAL).

OF SPECIAL INTEREST TO PARENTS

Parent Rights

Academic Programs: You can ask the principal to change your child's teacher or class assignment; however, the principal is not required to make the reassignment and will not do so ordinarily if that change would affect the assignment or reassignment of another student.

You can ask the school board to add a specific academic course to the schedule and offerings. If the administration and the board determine that the course is among those included in the State Board of Education-approved curriculum and that there is sufficient interest in the class to make it economically practical to offer the class, the request will not be unreasonably denied.

You can ask that your child be permitted to attend a class for credit above his or her grade level. If the counselor and child's current and prospective teacher expect that the child can perform satisfactorily in the class, the request will not be unreasonably denied.

Teaching Materials: You may review all teaching materials, textbooks and other teaching aids used in your child's classroom and may review all tests administered to your child, after the test is given. To review these materials, please contact the principal, who will make arrangements to provide you access to those materials at school during regular school hours.

Some textbooks are so expensive that we purchase classroom sets rather than a textbook for each student taking the course. You may request that your child be permitted to take home any textbook used by the student, and if a book is available, we will gladly honor that request. If the teacher requests it, the student must return the textbook to school the following school day.

Records and Other Information: As we stated in the "Required Notices" section of this Handbook, you have a right of access to all written educational records that we maintain concerning your child. You also can receive full information about any and all school activities in which your child is involved. However, as we explained in the section on "Questioning Students at School," we must comply with a request or directive from a Child Protective Services investigator regarding contact with or information to parents about an investigation.

Video and Audio Recording: We will seek and obtain your written consent before any school employee makes an audio or video recording of your child, except that your prior consent is not required before a recording that will be used only for:

- safety purposes, including maintaining order and discipline in common areas of the school or on school buses;
- a purpose related to a co-curricular or extracurricular activity;
- a purpose related to regular classroom instruction; or

- media coverage of the school.

Psychological Examinations: We will seek and obtain your written consent before conducting any psychological examination, test, or treatment of your child, unless the examination is part of an investigation by Child Protective Services in response to a report of known or suspected child abuse or neglect. If the examination or test is part of the comprehensive assessment to see if your child needs special education or related services, before we obtain consent, on your request, we will provide you with information about the name and type of examination and how the examination will be used to develop an appropriate individualized program for your child.

Exemption from Instruction: You may temporarily remove your child from a class or other school activity that conflicts with your religious or moral beliefs if you provide a written statement authorizing the removal to your child's teacher. However, you are not entitled to remove your child from class or an activity to avoid taking a test or to prevent your child from taking a subject for an entire semester. Your child will be required to satisfy grade level or graduation requirements, regardless of any periods of temporary removal based on your religious or moral beliefs.

Campus Performance and Accountability: We will keep you informed annually of your children's campus ratings and whether the campus has been identified under state and federal law as one that needs improvement. If the campus is so identified, we will inform you of your rights regarding public school choice and transportation at that time. You will receive information with your child's report card for the first reporting period of each year related to the campus performance rating under the state accountability system.

Classroom Celebrations: You or a grandparent may provide any food product of your choice to your child and his or her classmates on the occasion of the child's birthday or for any other school-designated function, such as class parties, bake sales, etc.

Visiting School

You are **welcome** to visit your children's schools from time to time; however, you must comply with our policy requiring **all** visitors to go first to the principal's office and sign in. We have this policy for the safety of your children and our staff. Parents and any other person on campus without the principal's knowledge will be considered as trespassers and may be subject to arrest.

We also expect parents to be polite and civil in their dealings with all school staff. We do not permit or tolerate abusive, disrespectful, threatening, lewd, profane, or offensive language from your children at school, and we will not tolerate it from parents. Parents who create a disruption at school or behave unacceptably may be prohibited from coming onto school property without specific authority and will be

treated as criminal trespassers if they disregard the principal's or superintendent's directive.

While we encourage you to be involved in your children's education and knowledgeable about their classes, teachers, and curriculum, it has been our experience that frequent and lengthy visits to the classroom are disruptive both to teaching and learning. The principal can limit or restrict the frequency and duration of classroom visits to be sure that disruption of the instructional process does not occur.

Complaint Process

We realize that situations may arise when parents disagree with a decision that affects their child or believe that a policy has been improperly applied to their child. A number of these types of disputes or controversies have specific processes for pursuing those concerns. The principal can provide you with a copy of the relevant policies and procedures.

In general, all parent complaints should be brought initially to the teacher involved or the campus principal within 15 **business** days of the events or situation that you are concerned about. Often the problem can be resolved through an informal conference with the teacher or principal. On those occasions when a conference does not take care of problem, you should request a copy of the complaint policy and complaint form from the principal's office. In order for your concern to be resolved at the earliest possible level, you **must** put your complaint in writing on the form provided before meeting formally with the principal.

The principal will schedule a conference with you and give you a written response within ten business days after the conference. You will also have an opportunity for a conference with the superintendent if the principal has not resolved the matter. If the superintendent is not able to take care of the problem, you can make a written request for the Board of Trustees to consider the matter at a future meeting. **You must, however, follow our established policies and use our forms.**

Individual trustees cannot respond to parent complaints beyond referring the matter to the administration. Furthermore, the board of trustees will not permit complaints to be heard in the public comment or open forum portion of board meetings. In order for the board to take any action on a complaint, you must follow the complaint process established in policy.

Student Health Concerns

We have adopted and enforce policies to ensure that our campuses comply with Texas Department of Agriculture guidelines for restricting student access to vending machines **containing foods of minimal nutritional value**. Generally, this means that soft drinks and other foods of minimal nutritional value will not be available to elementary students during the school day or to secondary students during any designated meal periods.

As required by state law, we have and enforce prohibitions against student possession and use of tobacco and tobacco products on campuses or a school-sponsored or –related activities. These prohibitions are addressed in the Student Code of Conduct and also in board policy and the employee handbook.

The district's student health advisory council met 2 times during the preceding school year **and will meet at least four times during each school year**.

In collaboration with you and, if possible, your child's physician, we will develop an individualized health plan for children with diabetes who need care for diabetes while in school or participating in a school activity. If your child has diabetes and will need care at school or while participating in a school activity, you must submit the diabetes management and treatment plan prepared by you and your child's physician before or at the beginning of the school year, on enrollment after the beginning of the school year, or as soon as practicable following a diagnosis of diabetes.

Student Illness or Injury at School

We will promptly attempt to notify you or a person you have authorized us to notify if we have knowledge that your child has been injured at school or has become ill at school. We have school nurses available to each campus and a secluded area where your child can stay if she or he is injured or becomes ill.

One of the forms we ask you to complete at the beginning of each school year is a form authorizing designated school employees to consent to medical treatment in case your child is injured at school or a school-related activity and requires emergency treatment. We, of course, will call you in such a situation and will also call for emergency medical assistance, if needed. **It is important, however, that you understand that the school district is not responsible for any cost of medical treatment or services provided after an injury at school or a school-related activity. We cannot and will not use public funds to pay individual student medical expenses.**

At the beginning of each school year, we offer you the opportunity to purchase low-cost student accident insurance that covers the student while at school. You may also purchase a policy that covers the student 24 hours a day. The school district is not the policyholder for this insurance; if you decide that additional protection would be a benefit and protection to you and your family, the contract is between you

and the insurance company. We are authorized to and do purchase accident insurance for students who participate in interscholastic athletic practice and competition.

Although we want your child to attend school every day, we do not want your child at school if she or he has a communicable disease or is running a fever of 100° or more. Under State and local Health Department regulations, if your child has certain medical conditions, she or he must be excluded from school for a period of time. The principal can provide you a complete list of those conditions and periods of exclusion.

Administering Medicine at School

Often, students have to take prescription medication for a certain period of time as treatment for a medical condition. If at all possible, we ask that you schedule the timing of the doses so that the child takes the medicine at home. If children have to take medicine at school, you must make a written request to the principal or nurse. The school nurse or other authorized school employee will administer medications only from a container that appears to be the properly labeled original prescription container or from a properly labeled unit dosage container filled by the nurse from a properly labeled original prescription container. Only the nurse or other authorized school employees are permitted to administer prescription medicines at school. Other than prescription asthma medicine or anaphylaxis treatment for students with severe allergies that may result in anaphylaxis, we do not permit students to carry their own medications and self-administer.

Children with asthma or children with severe allergies that may result in anaphylaxis will be allowed to carry and self-administer their prescription asthma or anaphylaxis medicine under certain conditions. The student must have demonstrated to his or her doctor and to the school nurse that the child has the skills necessary to self-administer the asthma or anaphylaxis medicine. Additionally you must provide us a written authorization for self-administration and a written statement from child's doctor that the student has asthma and is capable of self-administration and that includes the name and purpose of the medicine, the prescribed dosage, the times and circumstances for administration, and the period for which the medicine is prescribed.

We will keep a child's over-the-counter treatments such as ibuprofen, antacids, and the like in the nurse's office if the parent personally brings it. Nurses or authorized personnel will administer these medications according to the labeled instructions if you make a written request to the nurse, providing the same basic information as is required for administering prescription drugs.

If your child has unique medical conditions or any other condition, such as a food allergy, that requires virtually immediate administration of medications under specified conditions, please contact the principal, who will schedule a meeting of appropriate personnel to ensure that your child's needs are met.

Lost, Damaged, or Stolen Personal Items

We ask that you discourage your child from wearing or bringing to school expensive or irreplaceable jewelry, watches, sunglasses, or personal clothing that may be removed during the days, such as winter coats. Students are responsible for all their personal possessions while at school or any school-sponsored or school-related event. **It is important that you understand the school district is not responsible for any personal items that are lost, damaged, or stolen at school or a school-related activity.**

Each campus maintains a “Lost and Found” in the administrative offices; clothing and other items that are turned in as “lost” and not claimed by the end of the school year will be donated to a local charity.

Use of Telephone, Cell Phones, and other Electronic Devices

School telephones are for school business use. Students will be permitted to use school telephones only for emergencies and only with permission. If you call for your child during the school day, we will take a message and deliver it to the student at the end of the class period or other time that will least interfere with instruction. **The Student Code of Conduct allows students to keep cellular phones or other electronic communication devices in their lockers during the school day, but requires them to be turned off at all times.** Improper use of cellular phones, electronic communication devices, gaming consoles, or other electronic devices (such as, but not limited to pagers, radios, CD players, MP3 players, cameras) during the school day will result in the item being confiscated. Items will be returned only to the parent with a charge of \$15 for each offense. All fees must be paid using either cash or money order. Personal and business checks will not be accepted. After the third offense, cell phones and/or other electronic devices will be kept until the end of the school year. When the fee is paid, the phone will be returned to the parent only.

Parent Organizations/Volunteer Opportunities

We encourage parents to volunteer in our schools. All volunteers must complete an application form, and the district will obtain a Criminal History Report on all applicants for volunteer programs. Approved volunteers participate in a training and orientation program before they are permitted to assist in school programs and activities.

Transportation Program

We provide transportation on school buses to and from school for those children who live more than two miles away from the school they attend. Students are required to comply with rules for conduct on school buses and to comply with the Student Code of Conduct while at authorized school bus stops waiting for the bus. Students who misbehave or violate the Code of Conduct while on the bus will be disciplined according to the Code of Conduct and may be suspended from the bus for a period of time.

Authorized Fees

Although the basic cost of your child's public education is provided through local tax revenues, state funding, and some federal funds, we may assess fees for certain kinds of materials and services, as described in the following list:

- a fee to cover the cost of materials when the student makes, builds, or prepares some product that becomes the student's personal property.
- dues for voluntary student organizations and clubs and admission fees to voluntary extracurricular activities.
- security deposits for materials, supplies, or materials that must be returned to the district.
- fees for personal PE equipment and clothing, unless the student provides his or her own clothing and equipment that meets school health and safety standards.
- fees for items of personal use or products a student chooses to purchase, such as student publications, class rings, annuals, and graduation announcements.
- a reasonable fee, not more than the annual cost of maintenance, for school-owned musical instruments and uniforms.
- fees for personal apparel used in extracurricular activities that become the student's personal property, such as cheerleader, pep squad, or drill team uniforms.
- a fee for vehicle identification for cars regularly parked on school property.
- a fee for student identification cards.
- a fee for school-provided driver training courses.
- a fee for an elective course taken for credit if it requires using facilities not available on school premises or employment of an educator who is not part of the regular staff.
- fees for attendance at summer school. If the course is one required for graduation, summer school fees will be assessed if the course is also offered during the regular school year.
- fees, not more than \$50, for attendance in a program offered outside of regular school hours that allows students who have excessive absences that would require losing credit to make up missed instruction and receive credit. This fee will be assessed only if a parent signs a form stating that paying the fee will not create a financial hardship or discourage the student from attending the program.

You may request a waiver of any required fee that you are unable to pay by contacting the principal who will determine ability to pay based on the criteria for

identifying students who are eligible for participation in the free and reduced-price school breakfast and lunch program.

Food Service/Free and Reduced-Price Food Program

We serve a variety of nutritious food for students and faculty members at a nominal cost. We do not allow foods of minimal nutritional value, as defined by the federal Child Nutrition program, to be served or available for purchase in food service and eating areas during the time students are being served meals.

Students must follow directions for entering the cafeteria and observe good table manners and courteous behavior at all times, i.e., no cutting in line. Wearing hats in the cafeteria, loud talking, and unnecessary noise are considered poor manners and may result in disciplinary action.

Students may purchase meals in advance. We do not allow any students to charge meals more than two times before paying; however, a student is allowed to use the school phone to call home for lunch money.

Our schools participate in the federal Child Nutrition Programs, which provide free and reduced-price breakfast and lunch programs to students based on family income levels. We maintain strict confidentiality as to whether students participate in the program. If you would like more information about the program or an application, please contact the Director of Food Services, Raymond Matta at 432-336-4031.
